# EDUARDO MATURANA CÁCERES

FULL STACK DEVELOPER

ABOUT

I am a Full Stack Developer from Chile. I like teamwork, solving problems and carrying out software projects. I currently work at wherEX, where I have gained both technical and human experience. I think that I am responsible and proactive.

EDUCATION

Técnico universitario en informática | Universidad Técnica Federico Santa María (Final year).

- Go
- React, Vue & Angular
- MySQL, PostgreSQL
- MongoDB
- Docker
- Git & GitHub

EXPERIENCIE

wherEX - Full Stack Developer

MARCH 2022- PRESENT

In this company, I develop new features for a product called wherEX Pay using Angular & Go, also I have used Docker & MongoDB. This product is about Fintech & B2B commerce where buyers and suppliers can access to a dashboard and manage invoices, upload documents, and enroll with the national internal revenue service. We use Scrum methodology and track tasks with Jira Software.

Buenas Nuevas - Full Stack Developer

APRIL 2021 - PRESENT

I am part of a team of developers and designers serving in a volunteer job for a church called "Ministerio Levantando a Cristo". Here I have worked in the development and maintenance of 2 web applications, an internal social network and a streaming platform for church meetings. I have mainly used Vue & Laravel, building interfaces designed in Figma and I have also worked with agile methodologies using Jira Software for task management within the team.
