## SKILLS

- NodeJS
- Express
- Nest
- React
- Vue
- MySQL
- MongoDB
- Docker
- Linux based OS
- Git & GitHub

## EXPERIENCIE

**Ministerio de Enseñanza y Difusión Cristiana Buenas Nuevas**

APRIL 2021 - PRESENT

I am part of a team of developers and designers serving in a volunteer job for a church called "Ministerio Levantando a Cristo". Here I have worked in the development and maintenance of 2 web applications, an internal social network and a streaming platform for church meetings. I have mainly used Vue, building interfaces designed in Figma and I have also worked with agile methodologies using Jira Software for task management within the team.

## PERSONAL PROJECTS

- Ecommerce (Full Stack)
- Planning Project API (Backend)
- Social Network API (Backend)

You can take a look at all my projects by visiting my portfolio.
